RESPONSE TO OFFICE ACTION

Director of Patents
Washington, D.C. 20231

Dear Sir:

The following is being submitted in response to the Office Action dated July 3, 2002. The Applicant is submitting herewith the appropriate three-month extension fee. Please amend the application as follows:

In the Specification:

Please replace the following paragraphs with the following "clean" versions:

Page 3, line 21 to Page 4, line 8:

a
This can more easily be achieved by established countries with mature economies, growing nations and their respective governments, than poorer or developing nations whose economies and manufacturing bases, often lack sufficient financial resources, to afford the extremely costly intensive long term testing, research, implementation and compliance controls needed to effect and improve pollution reduction measures for internal combustion engines. The costs of controlling or limiting air pollution can
